CDL Driver/Septic Technician

Description

Drive the septic pumping truck, pump, and clean out the septic tanks. Utilizing iPad report, report information on each system serviced and report back to the office regarding suggested repairs and upgrades to extend the septic system's life. This CDL driver will also utilize tri-axle to deliver stone and materials, as well as driving the tank-truck to deliver septic tanks as needed.

This can be an entry-level position for the right person or a top-paying position for a qualified, experienced technician.

Hiring organization

Legacy Septic
